

PRESS RELEASE

Montu named in 2023 LinkedIn Top Startups in Australia

27 September, Sydney - Montu, Australia's leading medical cannabis company, is ranked fifth in LinkedIn Australia's Top Startups list for 2023.

The list, published by LinkedIn each year, lists 20 Australian companies that are continuing to innovate and attract top talent. Montu's listing is the first time a medical cannabis company has made the cut.

Montu Managing Director, Christopher Strauch, is pleased that the organisation continues to be recognised.

"We're so proud to be listed among the best companies in Australia. It's a testament to how hard our incredible team members work each and every day," he said.

"Being the first medical cannabis company to make the list, it's also an indication of the rapidly growing demand for our industry.

"We're proud to be the leading provider of these much-needed new treatment options, while also improving accessibility through an innovative tech-based ecosystem. Together it means we can continue to focus on putting our patients first."

The list ranking comes after Montu placed first in the Deloitte Tech Fast50 in 2022, setting a record for its rapid growth in the process.

First published in 2018, the annual LinkedIn Top Startups list has featured many other well-known Australian companies, a number of which have gone on to become large, globally recognised organisations such as Canva, Koala, and YouFoodz.

"We look forward to continuing to attract top-tier talent that can further accelerate our growth for the benefit of both our patients and the wider industry," said Mr Strauch.
